# Registered Apprenticeship Program (RAP) Course Codes and Course Names

The Registered Apprenticeship Program (RAP) enables students to spend part of their time in school and part in industry as registered apprentices in a designated trade.

Students enrolled in RAP are counted as full-time high school students and as registered apprentices.

To enter the program, students must be in senior high school and meet the grade entrance requirement for the selected trade or pass the trade entrance examination. Students must be registered with both Alberta Education (High School Curriculum Sector, Careers, Arts & Wellness, Languages and LDCs) and Alberta Advanced Education (Apprenticeship and Industry Training).

Complete details about becoming an apprentice can be found at [www.tradesecrets.gov.ab.ca](http://www.tradesecrets.gov.ab.ca).

RAP courses are classified as locally developed courses. School authorities intending to offer this program should refer to the [Off-campus Education Handbook](#) for further information.

## Locally Developed Courses Course Codes and Course Names

Courses within each category are listed in the sequential numerical order of the course codes. Prerequisite courses are indicated by their linear arrangement across the page. The line symbol—□ also indicates a prerequisite that leads to more than one course. Course credits are shown in parentheses. Prerequisite courses are identified in each locally developed course.

Senior high school locally developed courses require ministry authorization and must be submitted to the ministry. School authorities must approve locally developed courses by a resolution or a motion of the board of a school authority or governing body of a private school prior to offering the locally developed courses.

**Note:** Courses recently authorized are shown with a shaded background.

A list of withdrawn courses and programs appears at the end of the document.

\* Yoga and Yoga Fitness are equivalent courses. Equivalent courses mean that credits may only be earned in one of the courses at the same grade level. For example, a student can only earn credits for Yoga 15 or for Yoga Fitness 15, not for both courses. Equivalent courses also meet the same prerequisite requirements. That is, Yoga 15 is an acceptable prerequisite to Yoga Fitness 25, and Yoga Fitness 15 is an acceptable prerequisite to Yoga 25.
